**Electronic Occurrence Book**  
**Electronic Visitors Log Book**  
**Clocking System**

# Electronic Occurrence Book

## Benefits

OB Entries cannot be made in the future or in the past. This prevents OB entries from being captured long after or before duties are done

The OB Book for any site is accessible from anywhere when needed securely over the Web

OB Entries can easily be searched by day, capturer or site

No need to store piles of OB books anymore

## How it works

VisiTrac manages OB numbers and OB capture times for accuracy.

OB entries that are incidents and site faults sends immediate emails to nominated people in case immediate action is needed.

### In a Control Room

Control room operators login securely on the VisiTrac Web Viewer using Google Chrome

Control room operators capture OB entries as reported from the different sites

OB entries are stored securely on a database

### From Sites

Security officers record the OB entries using the VisiTrac mobile device

OB entries are stored securely on a database

## Accessing Information

Daily OB reports are emailed to nominated recipients every night.

Login securely anytime and from anywhere on the VisiTrac Web Viewer to download the required information.

Only  
**R395 p/m**

(Includes the  
OB capture device)

# Electronic Visitors Log Book

## Benefits

Visitors information is captured neatly and accurately from trusted sources

Information is accessible from anywhere when needed securely over the Web

Information is easily searchable, by day, vehicle registration or unit number

No need to store piles of visitors log books anymore

## How it works

Security officer scans the vehicle information from the vehicle disc, and the visitor information from the drivers license

Security officers can verify with a phone call if the visitor should be let in

Visitor information is stored securely on a database

## Accessing Information

Daily visitors information reports are emailed to nominated recipients every night.

Login securely anytime and from anywhere on the VisiTrac Web Viewer to download the required information.

Only

**R495 p/m**

(Includes the scanning device)

## Benefits

Site is regularly surveyed by security officers

Easily have visibility on the clocking rounds made and at what times

Access the clocking information from anywhere when needed securely over the Web

## How it works

Security officers are alerted by alarm when it is time for the clocking round.

Officers scan the clocking points placed around the site.

Different paths can be followed on every patrol.

Post patrol comments are captured electronically by the security officer.

Clocking information is stored securely on a database.

## Accessing Information

Daily clocking reports are emailed to nominated recipients every night.

Login securely anytime and from anywhere on the VisiTrac Web Viewer to download the required information.

Only

**R550 p/m**

(Includes the clocking device)
